A PROMISE TODAY
FOR ISRAEL'S TOMORROW
“We wanted to make a personal, lasting commitment to Israel and the Jewish people by leaving a bequest in our Wills.”
Andrew and Bella Strauss (WA)

A VITAL CONNECTION TO THE LAND YOU CHERISH

The continued well-being of the Jewish people and the land of Israel is vital to us all. A bequest in your Will is one of the most inspiring gifts one can give.

Since 1901, JNF has been at the forefront of the development of the land of Israel. Thanks to the generosity of individuals like you, entire communities throughout Israel have been created. Desert regions have been transformed into lush forests and fertile agricultural land, laying the groundwork for a modern, resilient nation.

Leave a lasting legacy for the land you love
YOUR SUPPORT CHANGES LIVES THROUGHOUT ISRAEL

Every year, JNF carefully selects projects designed to develop infrastructure, create jobs, protect the environment, support research and education and encourage sustainable growth.

Create a secure future for Israel through a bequest to JNF
“My late parents were staunch Zionists. They were also passionate supporters of JNF as well as active, dedicated volunteers. We, their three children, were asked by them to make a donation to JNF from the proceeds of their estate, which we have done. This is a true mitzvah, a legacy and a shining example to us and all future generations of my family of the true meaning of tzedaka”.

Recreation & Tourism
JNF develops recreation facilities, picnic areas, scenic roads, cycling trails and accessible parks. These facilities directly support Israel’s rapidly expanding tourism industry, attracting local and international visitors.

Ecology & Afforestation
Since its establishment in 1901, JNF has planted over 240 million trees. JNF continues to manage Israel’s forests, sustain her natural environment and protect border communities against rockets and snipers with natural camouflage.

Research & Development
JNF has built leading edge environmental research and development centres which produce innovative, scientific discoveries that benefit Israel and people throughout the world.

Education & Training
JNF has supported more than 2100 schools and funds educational programs focused on providing informative, interactive and enjoyable learning experiences for children, adults and international students alike.

A bequest in your Will enhances lives in Israel
“I strongly believe we are put in this world to help other people. By contributing to charities whilst alive as well as by leaving a legacy, I am able to gain valuable insight into each charity’s needs and can distribute funds accordingly.”

Community Development
JNF has directly supported over 1200 communities throughout Israel. Dust and desert have been replaced with green spaces, gardens, playgrounds and landscaping, vital to creating thriving communities.

Wildlife Conservation
JNF supports the conservation of wildlife across Israel. Natural habitats for a variety of species are sustained and enhanced so that they continue to survive and flourish.
Water Management
Thanks to JNF, Israel has become a world leader in water management, recycling and conservation technology. JNF has built reservoirs which provide over half of the water required for Israel’s agricultural communities.

Social Welfare
Through the recent adoption of Benevolent Relief Status, JNF now incorporates and promotes a much wider range of projects assisting in social welfare issues. JNF provides relief and support to communities suffering from poverty, distress, sickness and disability.
